Dear Josh,

This recurring painful back is no fun and I regret the ~~fact~~ fact that I was unable to see you and Esther. I am writing to Alex to Uruguay and sending him a list of questions which I hope he can answer by ~~mail~~ mail. I still expect to be able to come to California before too long but since the financial arrangements through City of hope has "phased out" because I did not attend the annual meeting in december, I will have to look to Syntex as a possible source of support.

Sending my best regards to you and love to Esther and wishing you merry christmas and Happy New Year. Yours as ever,

Myricki
